

AN OCIO SOLUTION

OUTSOURCED CIO FOR DB PLANS

An OCIO platform is designed to help meet your liabilities

For more than 40 years, Russell our comprehensive and flexible Outsourced Chief Investment Officer (OCIO) solutions has helped defined benefit (DB) plans effectively manage their retirement program assets and meet plan obligations.

You will have a co-fiduciary over your assets

We'll provide strategic advice to help you make governance level decisions, including:

- Governance and fiduciary framework and structure
- Objective setting
- Investment and risk policy development and review
- Asset allocation / liability studies and modeling
- LDI glidepath analysis and custom liability management strategies
- Capital market and manager research

You will have the ability to customize your exposures

Our open architecture platform provides access to a wide array of investment strategies from highly researched third-party asset managers, including:

- A full range of active and passive traditional asset classes with daily liquidity
- Extensive capabilities in private markets, including equity, debt and real estate strategies
- Hedge fund access via a fund of funds or directly via a separately managed account
- Other alternative strategies such as marketable real assets
- ESG integration as well as access to sustainable investing strategies
- Deep experience partnering with broad-based alternatives experts

Your assets will be expertly invested and managed.

Once you've set your strategic priorities, we will get to work implementing your investment solution. This will include:

- Manager selection, contracting and monitoring
- Portfolio structure and construction
